

VISION AND MISSION

VISION

Killarnee Civil and Concrete Contractors is a highly successful and equally highly visible company. We aim to not just maintain but to extend our reputation as the best concrete construction company in the civil construction industry. We serve predominantly the mineral sector in Western Australia. We intend, however, to grow without losing sight of the values that are typical of our family-owned and operated enterprise. These values essentially translate into caring about the people with whom we do business – namely, the people who work for us; the people who supply our needs; and the people who buy the goods and services that the Killarnee team expertly provides. Killarnee Civil and Concrete Contractors will continue its evolutionary development to justify its rating as a quality endorsed company. We have set our sights on clearly becoming a leading company in our field.

MISSION STATEMENT

Killarnee Civil and Concrete Contractors's mission is to provide world-class concrete construction solutions for clients within the mineral sector. We aim to become their 'contractor of choice'. Killarnee's first responsibility, therefore, is to those people who employ our services. We will broadly follow the philosophy that 'our clients are our future', so our aim is to offer them innovative, practical, and top-quality services. We intend that those services will:

-

Save our clients time,

-

Be cost effective (by costing less than competing providers), and

-

Be convenient (by making those services more readily available than those offered by any of our competitors).

Our second responsibility is to our employees and our community. In carrying out our day-to-day business we will:

-

treat our employees with goodwill and respect, and

-

contribute to the quality of life in our community by supporting deserving local charities.

Through our long-term commitment to this mission, Killarnee Civil and Concrete Contractors will be known as a company that provides first-class solutions to its clients wrapped all around with the unbreakable fabric of social conscience.
